MEASAT OFFERS ANNUAL SPACE UNIVERSITY SCHOLARSHIP

KUALA LUMPUR, 7 February 2010 – MEASAT Satellite Systems Sdn. Bhd. (“MEASAT”) is inviting Malaysians to apply for a fully paid scholarship to study for a Masters Degree in Space Studies or Space Management at the International Space University in Strasbourg, France. The scholarship, provided in 2010 with the support of Boeing Satellite Systems, is part of MEASAT’s CSR program focused on supporting the development of future technology leaders for the Malaysia’s satellite industry.

The scholarship, for a one-year program commencing September 2010, is open to Malaysian citizens aged 35 and below. Applicants needs to have a strong command of verbal and written English and have obtained an accumulative minimum GPA of 3.6 or above in the field of Economics/ Finance/ Mathematics/ Law/ Business Administration/ Electrical/ Communications Engineering/ Aerospace Engineering or Physics.

To apply for the scholarship, candidates should submit:

1. A detailed resume;
2. Certified true copies of relevant certificates, SPM results, University transcripts, the names of 3 referees and other supporting documents; and,
3. A write up in not more than 500 words, explaining your interest in satellite technology and why you should be awarded the Scholarship.

Applications should be sent no later than **1 March 2010** to either:

Email measatscholarship@measat.com
Postal Address MEASAT Satellite Systems Sdn. Bhd. (Company No 247846-X)
MEASAT Teleport and Broadcast Centre
63000 Kuala Lumpur, Malaysia

Full Terms and Conditions for the Scholarship can be viewed at www.measat.com.

Only short listed candidates will be notified.

About MEASAT

MEASAT is a premium supplier of satellite communication services to Asia's leading broadcasters, DTH platforms and telecom operators. Operating four communications satellites, the MEASAT fleet is able to provide satellite capacity to over 145 countries representing 80% of the world's population across Asia Pacific, Middle East, Africa, Europe and Australia. With the newly launched MEASAT-3a satellite located at the Company's key orbital slot at 91.5°E, the MEASAT fleet has a total of 100 transponders across four satellites.

Leveraging facilities at the MEASAT Teleport and Broadcast Centre, and working with a select group of world-class partners, MEASAT also provides a complete range of broadcast and telecommunications services including high definition and standard definition video playout, video turnaround, co-location, uplinking and IP termination services.
