PRESS RELEASE

MEASAT showcases innovative National Security solutions at LISF@LIMA 2023

Sovereign satellite communications systems for Malaysia's military and security stakeholders showcased with industry-leading partners

Kuala Lumpur, 22 May 2023 – MEASAT Global Berhad (“**MEASAT**”) – Malaysia’s leading satellite solutions provider, will be showcasing its portfolio of solutions; particularly sovereign satellite communications systems for the military and other security stakeholders at the Langkawi International Space Forum (“**LISF**”) held in conjunction with the 16th Edition of the Langkawi International Maritime and Aerospace Exhibition (“**LIMA**”) from 23 to 27 May 2023. MEASAT – in collaboration with its global partners including Datacomm, Hughes Network Systems, Kymeta Corporation, LatConnect 60, ST Engineering iDirect and Thuraya, will be displaying various satellite-based solutions that bolster national security capabilities.

Following the launch of MEASAT-3d – the company’s most advanced satellite in 2022, MEASAT’s fleet of satellites now has elevated capacity to offer high-speed broadband connectivity to power various services and applications. These include:

- High-speed Communications on the Move (“**COTM**”) for both onshore and offshore connectivity
- Globally deployed field-tested Secure Military Satcom applications
- Portable Manpack solutions for fast and nimble mobilisation
- Earth Imaging and AI-based Data Analytics for fast decision-making
- 100% coverage of land and water with Mobile Satellite Services

“MEASAT is proud to participate in the Langkawi International Space Forum 2023. As the national satellite operator, we have been supporting Malaysia’s Government agencies in various secured communications and safety monitoring functions over the years, via our C-band, X-band, Ku-band and now Ka-band capacities providing 100% coverage of Malaysia and its territorial waters. Our growing portfolio of end-to-end MEASAT Managed Bandwidth Services, for diverse use cases are suitable to match the needs of Army, Navy and Air Force divisions of Malaysia’s Armed Forces, which build on our success connecting residents and businesses in remote and offshore locations lacking terrestrial communications coverage. MEASAT welcomes all interested parties to visit our booth at LISF@LIMA 2023 to discover how we can serve their needs,” said Yau Chyong Lim, Chief Operating Officer at MEASAT.

MEASAT’s Managed Bandwidth Services are available across the entire fleet of MEASAT satellites and are suitable for a variety of applications in areas without telecommunications coverage, enabling customers to focus on their core activities whilst leveraging on MEASAT’s expertise to manage connectivity solutions.

About MEASAT

MEASAT is a premium supplier of communication and video services to leading broadcasters, Direct-To-Home (“DTH”) platforms and telecom operators, with a footprint covering 130 countries representing 80% of the world’s population across Asia, Africa, Europe and Australia.

As Malaysia’s premier satellite solutions provider, MEASAT offers a range of customised services for enterprise clients in various industries, such as satellite-based cellular backhaul, VSAT networks and Managed Bandwidth Services to help clients manage their operation costs and investment risks. MEASAT also provides satellite services for offshore clients in the Maritime and Oil & Gas sectors to ensure reliable and secure communications networks in these mission critical areas. In addition, MEASAT delivers reliable and secure communications networks to the Government for critical national security applications.
