1. INTRODUCTION

MEASAT Global Berhad (“**MGB**”) and all its subsidiaries (each, a “**Company**”) strictly prohibit bribery and corruption in all their businesses. The Company adopts a **ZERO TOLERANCE APPROACH** against all forms and acts of bribery and corruption and is committed to operating in compliance with all applicable laws on anti-bribery and corruption and in accordance with the highest ethical and professional standards.

As such, the Company expects Third Parties¹ dealing with the Company to apply the highest ethical standards in their business relationships and to ensure that they have an appropriate anti-bribery and corruption compliance framework in place.

Therefore, before the Company enters into any business relationship or formal arrangement with a Third Party, the Company is obligated to conduct an appropriate Third Party anti-bribery and corruption due diligence to understand the business and background of its prospective business counterparties.

This Anti-Bribery and Corruption Due Diligence Policy (“**Policy**”) supports and complements the Company’s Anti-Bribery and Corruption Policy, Dealing with Third Parties Policy and Gifts, Hospitality and Travel Policy (collectively the “**ABC Policy**”) by providing practical, detailed due diligence process and monitoring procedures tailored to the specific corruption risks faced by the Company.

The objective of this Policy is to establish a standard guideline to ensure that the whole approach and process in performing the anti-bribery and corruption due diligence on Third Parties and subsequent monitoring of the Third Parties are consistent across the Company and in line with the ABC Policy.

Should you have any questions on the due diligence processes and procedures contained in this Policy, please contact the Company’s Compliance Officer.

2. APPLICATION

This Policy applies to all directors (executive and non-executive) and employees (permanent or contract) (collectively “**Employees**”) of the Company.

This Policy shall be effective on 30 July 2021.

3. THIRD PARTY ANTI-BRIBERY AND CORRUPTION DUE DILIGENCE PROCESS

The Company recognises that bribery and corruption risks may vary by location, type of transaction and counterparties. Accordingly, this Policy requires anti-bribery and corruption due diligence to be conducted on all Third Parties where the Employees should collate and evaluate information on the Third Party’s associations, compliance, qualifications, reputation etc., and to ascertain whether the business transaction would present any perceived risk of bribery and corruption to the Company.

Below are steps to be taken in the anti-bribery and corruption due diligence process:

¹ “Third Parties” includes, without limitation, agents, consultants, contractors, suppliers, transaction counterparties, clients/customers, joint venture or consortium partners etc.

3.1 Pre-Classification

Prior to the commencement of the anti-bribery and corruption due diligence, the Third-Party shall be pre-classified. Anti-bribery and corruption due diligence process is **not required** for Third Parties that fall under the following List of Exempted Third Parties:

- (a) newspapers, magazine, journal providers or vendors;
- (b) professional bodies or trade associations in respect of membership subscription;
- (c) suppliers of rubber stamp, name plates for registered office, registered books and common seal;
- (d) notary public or commissioner for oaths in relation to performance of duties under the Notaries Public Act 1959 and Commissioners for Oaths Rules 2018;
- (e) government agencies e.g., SSM, IRB, MCMC, etc. including any courts and arbitration tribunals;
- (f) parking providers;
- (g) seminar and training providers (non-negotiable rate and without customisation);
- (h) established e-commerce online merchants, which provide a platform for the public to buy and sell of goods and services;
- (i) utility companies;
- (j) hotel and airline operators/travel agencies for hotel and flight ticket bookings (non-negotiable rate and without customisation);
- (k) licensed financial institutions in relation to account opening/placements;
- (l) courier companies (non-negotiable rate and without customisation);
- (m) hospitals, clinics and dental clinics;
- (n) oil companies (for purchase of petrol only);
- (o) any other Third Party providing services and/or supplies where the value of the transaction does not exceed RM5,000 per annum in the aggregate;
- (p) tailors and seamstresses; and
- (q) electricians, plumbers and contractors for general building maintenance and repairs services, whose business is sole proprietorship.

Pre-classification of Third Party is based on risk-related factors such as the nature of the transaction and background of the Third Party.

3.2 Anti-Bribery and Corruption Due Diligence Questionnaire

Prior to entering into any business relationship or formal arrangement with a Third Party, the Procurement Department or in the case where the Company is providing services, the sales manager or Head of Department (“**HOD**”) in-charge or responsible for the sale/service (“**Sales Manager**”) must:

- (a) send the Anti-Bribery and Corruption Due Diligence Questionnaire (“**Questionnaire**”) appended in **Appendix A**, to the Third Party. The Questionnaire is designed to gather the necessary information on the Third Party (such as its associations, compliance with anti-bribery laws etc.) to assist in determining whether the Company may conduct business with the Third Party. The Sales Manager shall use his/her judgment and determine which potential or prospective customer(s) should be requested to complete and submit the Questionnaire rather than every person who makes an inquiry for services; and
- (b) provide a copy of the ABC Policy to the Third Party which reflects the Company’s zero tolerance approach to bribery, corrupt and unethical practices.

3.3 Verification/Validation

- (a) Upon receiving the completed Questionnaire from the Third Party, the Procurement Department or Sales Manager shall perform the following:

- (i) review the completed Questionnaire submitted by the Third Party and ensure all information and supporting documents are provided; and
 - (ii) identify any gaps or inconsistencies in the information collected through the Questionnaire. In the event there are gaps or inconsistencies, or any alarming fact that has been discovered during this process, the Procurement Department or Sales Manager should consult the VP of Finance, request further information from the Third Party and/or consult any other Head of Department (“HOD”) or third parties known to the Company (on a confidential basis) who may have had prior dealings with the Third Party to help ensure objectivity by allowing a second set of independent eyes to weigh in on the findings. If required, phone interviews may be conducted, or site visits be made to address any outstanding issues.
- (b) The information collected should be tested against a “red flag” checklist. Red flags refer to circumstances suggesting a corruption risk that should be properly identified and mitigated through adequate safeguards. Please refer to **Appendix C of the Dealing with Third Parties Policy** for the list of general “red flags”. Please note that the list of general “red flags” in Appendix C of the Dealing with Third Parties Policy is not intended to be exhaustive, and the Procurement Department or Sales Manager is required to consider all relevant information and circumstances to identify any other red flags.
- (c) The identification of a red flag does not mean that the Company cannot proceed with the business relationship with the Third Party. However, no red flag should be left unaddressed or unresolved, and mitigating measures should be implemented that reflect the level of seriousness of the red flag(s) identified.

3.4 Risk-Based Assessment and Third Party Classification

- (a) The Company recognises that it may not be practical to conduct an in-depth anti-bribery and corruption due diligence on every Third Party the Company considers contracting with, as the extent of corruption risks differ according to parties and type of transactions. Therefore, a risk-based assessment shall be conducted on the Third Party to classify the risk category of the Third Party in order to determine the appropriate level of due diligence to be conducted on the Third Party. This will allow resources to be allocated and utilised in the most efficient and effective manner.
- (b) Upon completion of the verification/validation process by the Procurement Department or Sales Manager, the VP of Finance shall conduct a risk-based assessment based on **Table 1** below which provides an understanding of the factors to be considered in a risk-based assessment and how to determine whether the Third Party represents a high or low corruption risk. The outcome of this assessment will determine the extent of due diligence required.

- (c) The Procurement Department or Sales Manager shall complete the Third Party Classification Checklist (“**Classification Checklist**”) attached as **Appendix B** herein (except for Section D which shall be signed off by the VP of Finance), which sets out some of the common red flags that may arise during the verification/validation process as well as factors which will classify the Third Party as Low, Medium or High risk.
- (d) If any issues of concern or “red flags” are identified in connection with a Third Party during the verification/validation process, the VP of Finance should propose and set out the mitigating measures or actions to address the “red flags”.

3.5 Gathering Information from Outside Sources

- (a) Upon completing the Classification Checklist, the VP of Finance must conduct the appropriate anti-bribery and corruption due diligence steps as set out in **Column 3 of Table 1** above on the Third Parties according to the risk level.
- (b) In respect of searches, the assistance of an external due diligence service provider may be needed to undertake a global risk screening which covers politically exposed persons, close associates, family members, government or state-owned entities, state invested enterprises, global regulatory and law enforcement lists etc.
- (c) If further red flags are identified from the results of the searches conducted, the VP of Finance should consult the CFO and/or GC to decide whether additional due diligence steps are required.

3.6 Consultation with the CFO and/or GC

(Applicable to High Risk Third Parties or Medium Risk Third Parties should the VP of Finance decide to obtain consultation from the CFO and/or GC)

- (a) In respect of a High Risk Third Party, upon completion of the searches, the VP of Finance together with the Compliance Officer, shall consult with the CFO and/or GC whether it is worth proceeding with the business relationship with the Third Party vis-à-vis the risks identified, before presenting the proposed transaction (including any mitigation measures or actions to address any issues of concerns or red flags) to the Board for approval.
- (b) While consulting the CFO and/or GC, the VP of Finance shall ensure that the following documents are provided for his/her consideration:
- (i) all “red flags” identified during the verification/validation process or from the result of the searches;

- (ii) any proposed mitigating measures and monitoring activities;
 - (iii) a final risk classification (i.e., low, medium or high risk);
 - (iv) all the searches done on the Third Party; and
 - (v) business justification to engage the Third Party.
- (c) For Medium Risk Third Party, the VP of Finance has the discretion whether to consult the CFO and/or GC before proceeding with the business case.

3.7 Contracting

- (a) The Legal must ensure that the agreements to be entered into between the Company and the Third Parties shall contain anti-bribery and corruption clauses in accordance with the specimen clauses stated in the ABC Policy, where applicable.
- (b) The respective HOD/Chief Operating Officer (“**COO**”) must ensure that the Third Party does not commence the business transaction and respective HOD/Finance Department should not approve any payment before the due diligence is approved and the contract is executed.

3.8 Ongoing Monitoring

- (a) Upon the contract being entered into with the Third Party, the performance of and/or ongoing relationship with the Third Party should be monitored by the respective HOD and Procurement Department throughout the term of the contract to ensure continual compliance with the ABC Policy by the Third Party. Any concerns or issues arising during the monitoring process should be highlighted immediately to the Compliance Officer. Such monitoring process should include, where applicable:
 - (i) insist on documentation or justification before approving any payment;
 - (ii) check whether all charges or fees are supported by the contract or other relevant documentation;
 - (iii) query unusual or excessive charges; and
 - (iv) refuse to pay the Third Party and notify the Compliance Officer upon being aware of any illicit or questionable payments made on the Company’s behalf by the Third Party.
- (b) Wherever there is a change in circumstances (e.g., a material change to the corporate structure of the Third Party or new “red flags” arise), the respective HOD and Procurement Department must assess the bribery risk (if any) arising from such changes and whether there are any available mitigating measures that could be put in place. Thereafter, the respective HOD or Procurement Department shall notify the VP of Finance and thereafter, if required ask the Compliance Officer for direction.
- (c) Ongoing monitoring requires the respective HOD, Procurement Department and Compliance Officer to work closely to inform each other of any material change of information or red flags on the Third Party which may pose a greater risk of corruption.
- (d) For High-Risk Third Parties, the respective HOD or Procurement Department should during the term of the contract, undertake the following additional monitoring activities to supervise the conduct of the Third Parties:

- (i) reiterate the Company's anti-bribery and corruption expectations to the Third Party at least annually, and document the contents of such discussions;
- (ii) review and conduct an updated risk-based assessment on the Third Party annually; and
- (iii) conduct recurring internet and database searches to identify new "red flags" from time to time.

4. ANTI-BRIBERY AND CORRUPTION DUE DILIGENCE RENEWAL

- (a) Anti-bribery and corruption due diligence covers a finite time and must be updated at least once every 3 years to identify new "red flags" that may have developed since the first due diligence was approved. The due diligence shall also be performed as and when there is a change in circumstances (e.g., a material change to the structure of a Third Party, newly identified "red flags" or if Third Party begins providing new services).
- (b) In the event the contracts with the Third Parties have expired, no anti-bribery and corruption due diligence update is required unless there is a renewal in the contracts or business relationship.
- (c) Any anti-bribery and corruption due diligence that has been concluded may later be used for the same Third Party, provided that:
 - (i) the nature of the service remains the same;
 - (ii) subject to Paragraph 3.8(d)(ii) above, the due diligence is not older than 3 years; and
 - (iii) there is no change to the information last submitted by the Third Party through the Questionnaire to the Company, and there are no grounds to believe that the risk classification of the Third Party has increased. In this instance, the Third Party shall sign a confirmation letter confirming that there is no change of information from the last submitted Questionnaire.

5. RECORD KEEPING

Documentation related to dealing/engagement of the Third Parties must be retained to demonstrate that the Company has taken reasonable precautions to avoid involvement in corrupt activities or with corrupt actors by providing evidence of credible due diligence, decision making, contracting and monitoring. The relevant documents should at a minimum include the following:

- (a) Due Diligence Process Documentation (of which the Procurement Department, Sales Manager and Compliance Officer shall be the custodian):
 - (i) completed Questionnaire including any supporting documents provided by the Third Party;
 - (ii) completed Classification Checklist;
 - (iii) information gathered from internet and media search (compiled by the Procurement Department or Sales Manager);
 - (iv) all search results conducted on the Third Party;
 - (v) all business intelligence reports from reputable service providers;

- (vi) any other due diligence materials gathered during the due diligence process;
and
 - (vii) where applicable, the agreement or contract evidencing the transaction or engagement.
- (b) Agreements or contracts evidencing the transaction/engagement, including, without limitation, purchase order, delivery order, invoices etc. (to be retained by the relevant business units or Finance Department, as the case may be).
- (c) Monitoring Related Documentation (of which the Procurement Department, Sales Manager and Compliance Officer shall be the custodian of such documents)
- (i) documents evidencing the annual renewal or update of the risk assessment and due diligence processes for High-Risk Third Parties;
 - (ii) documents relating to recurring internet and database searches to identify new “red flags” for High-Risk Third Parties; and
 - (iii) documents evidencing any additional monitoring done on Third Parties, where performed.
