## **DR ALI EBADI ELECTED ITU RRB CHAIRMAN**

**KUALA LUMPUR, 12 December 2008** - Dr. Ali R. Ebadi, MEASAT's Senior Vice President of Space Systems Development, has been elected to be the Chairman of the International Telecommunications Union's (ITU) Radio Regulations Board (RRB).

"I am deeply honored to have been elected Chairman of the RRB. I look forward to working closely with other members of the Board to address matters which cannot be resolved through application of the ITU Radio Regulations in an efficient, effective and transparent manner," said Dr. Ebadi.

The RRB is an international panel of experts under the ITU who convene to oversee the application of the world's Radio Regulations, a set of internationally agreed guidelines for the use of the radio spectrum across the world. The RRB is made up of only 12 members from the 191 Member States of the ITU representing the world's five ITU regions (Americas, Western Europe, Eastern Europe, Africa, Asia and Australasia).

### **About MEASAT**

MEASAT is a premium supplier of satellite communication services to Asia's leading broadcasters, DTH platforms and telecom operators. With the commissioning of AFRICASAT-1, the MEASAT fleet is able to provide satellite capacity over 145 countries representing 80% of the world's population across Asia Pacific, Middle East, Africa, Europe and Australia. The fleet will be further enhanced in 2009 with the launch of MEASAT-3a, providing additional capacity and in-orbit redundancy at the Company's key 91.5E orbital video slot.

Leveraging facilities at the MEASAT Teleport and Broadcast Centre, and working with a select group of world-class partners, MEASAT also provides a complete range of broadcast and telecommunications services including high definition and standard definition video playout, video turnaround, collocation, uplinking and IP termination services.
