**MEASAT/BOEING SPACE UNIVERSITY SCHOLARSHIP
Master's Degree Scholarship to study at the International Space University, France**

Kuala Lumpur, 3 November 2006 – MEASAT Satellite Systems Sdn. Bhd. ("MEASAT") is inviting qualified Malaysians to apply for a fully paid scholarship to study for a Masters Degree program in Space Studies or Space Management at the International Space University in Strasbourg, France. The scholarship, made with the support of Boeing Satellite Systems, is being held in conjunction with the launch MEASAT-3, the country's third communication satellite, at the end of the year.

The scholarship is open to Malaysian citizens with under-graduate degrees in 2006 or 2007. Applicants need to have obtained an accumulative minimum GPA of 3.6 or above in the field of Economics/ Finance/ Mathematics/ Law/ Business Administration/ Electrical/ Communications Engineering/ Aerospace Engineering or Physics. Candidates need a strong command of verbal and written English.

The successful candidate should submit an updated resume, certified true copies of relevant certificates, their SPM results, university transcripts, the names of 3 referees and other supporting documents no later than **17th November 2006**. Candidates are also required to submit with their application a description, in not more than 200 words, explaining their interest in the space industry and why they should be awarded the Scholarship.

Applications should be sent to either:

Email measat3scholarship@measat.com

Postal Address MEASAT Satellite Systems Sdn. Bhd. (Company No 247846-X)
MEASAT Teleport and Broadcast Centre
P.O. Box 10251
50780 Kuala Lumpur, Malaysia

Full Terms and Conditions for the Scholarship can be viewed at www.measat.com. Only short listed candidates will be notified.

About MEASAT

MEASAT is a premium supplier of satellite communication services to Asia's leading broadcasters, DTH operators and telecom providers. Currently operating a two satellite network, MEASAT provides video distribution services across East and South East Asia, Indochina, South Asia and Australia. The launch of MEASAT-3 and MEASAT-1R, will extend the reach of the MEASAT fleet, providing customers with a satellite able to reach Pay-TV operators in over 100 countries, representing more than 70% of the world's population.

Leveraging facilities at the MEASAT Teleport and Broadcast Centre, and working with a select group of world-class media partners including Astro, Pacific Century Matrix and STT, MEASAT provides a complete range of broadcast services including video playout, up-linking, and video turnaround to and from the key European and North American markets.
