PRESS RELEASE

MEASAT appoints John Loke as Chief Technology Officer

Kuala Lumpur, 1 April 2026 – MEASAT Global Berhad (“MEASAT”) – Malaysia’s premier spacetechnology solutions provider, announced today the appointment of John Loke as its Chief Technology Officer (“CTO”). John will drive the company’s innovation roadmap and support its long-term growth.

As CTO, John oversees MEASAT’s digital evolution and regional strategy, shaping the company’s future through AI-driven solutions and multi-orbit strategies. He leads the Satellite and Network Engineering & Operations, as well as Information Technology & Digital Transformation divisions, and spearheads the technical aspects of satellite and launch procurement.

Having previously served MEASAT for a decade in senior leadership roles, including Vice President of Network Engineering & Operations and Customer Engineering, John brings a rare combination of deep organisational knowledge and broad regional experience. He was instrumental in the successful delivery of flagship initiatives such as MEASAT-3a, MEASAT-3b, and CONNECTme, which have underpinned the company’s market-leading position.

Most recently, John served as CTO of a Singapore-based satellite operator, where he led the delivery of high-speed broadband services across the Asia-Pacific region. He began his career at Singapore Telecommunications Ltd (SingTel) as part of the pioneering team that launched the ST-1 operation.

About MEASAT

MEASAT is a leading SpaceTech provider delivering satellite solutions across Malaysia, Asia, and Australia. Operating from the prime 91.5°E orbital hot spot, MEASAT distributes Direct-To-Home TV channels to over 20 million viewers regionally and offers customised services, including cellular backhaul, corporate networks, and high-speed broadband for diverse sectors such as government, telecom, maritime, and oil & gas. As Malaysia’s main rural broadband provider, MEASAT’s CONNECTme service has connected over 500,000 Malaysians in remote areas. MEASAT is also an authorised Starlink reseller and has received global recognition, including the 2025 Hybrid Teleport Operator of the Year, three-time Regional Satcom Operator of the Year by Novaspace (most recently in 2023), and the 2025 PIKOM Digital Excellence Award for Digital Infrastructure in Rural Healthcare Connectivity.
